

Get a FREE security system inspection from Brinks!

When ordering your home inspection just let us know if the home has an alarm system that you would like to be inspected. We will arrange with Brinks to meet us at the home the same day as the home inspection to look at the security system.

The alarm inspection lasts 15 to 20 minutes, depending upon the size of the home. After the evaluation of the existing alarm, the Brink's inspector informs the homebuyer exactly what components the alarm has and where they are located. This process takes only a few minutes and will not disrupt your home inspection. The Brink's inspector will leave a complete report with the homebuyer and the home inspector.

If the home does *not* have an alarm system our inspector can provide a brochure for you on how to make your home safer, and detailing the special Brink's offer, which includes a \$50 Target Gift Card redeemable only through Brink's when the homebuyer becomes a Brink's customer.

Additional incentives offered by Brinks:

- Can receive a discount of up to 20% on Homeowner's Insurance
- No credit check is required
- Free Activation
- 1 free piece of equipment
- Lifetime move policy - if the homeowner moves and is a Brink's customer, we will provide them service at their new home.

Just let us know and we can put Brinks in touch with you to discuss all these great deals for a safer home!
