Dear Mike,

You were awesome! Your presentation to our "Chart Your Path to Home Ownership" program participants was wonderful; it was interesting, informative and professional. Our participants were most impressed with the scope of your knowledge on the process and on specifics related to home inspections. We do appreciate that you were able to offer your services at 3 of our locations... that was a lifesaver for us, as it guaranteed that we had quality presentation at those sites. In addition, sending our flier out to the various realty companies gave us much more visibility among that group of professionals.

Having such a thorough presentation enhanced our program, as the local expertise provided by professionals, such as you, helped the participants understand the home buying process more thoroughly.

Your assistance, expertise, and support of our program are truly appreciated.

Warmly,
